

# LUIZ FERNANDO COSTA DOS SANTOS

+55 83 98691-5219 — luizfernando1012000@gmail.com

**GitHub:** luiz826 **LinkedIn:** in/luizfernando632 **Site:** luiz826.github.io

## EXPERIENCE

- Data Science Specialist – CloudWalk, Inc.** Sep 2026 — Present
- Building the next generation of financial models: a tokenizer for financial events (implemented in Rust), pre-training and fine-tuning transformer-based models on GPU clusters.
- Data Scientist III – CloudWalk, Inc.** Jan 2026 — Sep 2026
- Co-created a model registry, serving, and inference platform for the credit team, scaling the loan decisioning infrastructure from 1 to 20+ models (GPU-accelerated pipelines, online inference for credit card products) and scoring 7M+ users.
- Machine Learning Engineer — Platform Team – Nubank** Sep 2025 — Dec 2025
- Spearheaded the development of a centralized Feature Store, standardizing feature discovery and versioning to reduce model time-to-market, serving 30+ teams across the company.
  - Architected data immutability systems using Delta Lake, ensuring strict data quality standards and reproducibility for feature pipelines.
- Machine Learning Engineer — Credit Team – Nubank** Sep 2022 — Sep 2025
- Engineered a Python model orchestration library (batch/real-time), reducing average deployment time by 60% (5 months to 2 months).
  - Led the migration of monitoring services to a Spark/Scala framework, reducing contribution lead time from 5 hours to under 1 hour.
- Machine Learning Engineer (Research Project) – Huawei & Embrapii** Feb 2022 — Aug 2022
- Deployed Random Forest models on a 50,000-point solar characterization dataset, increasing the plant's energy generation efficiency by up to 12%.
  - Built a feature serving system using Airflow and InfluxDB to process IoT sensor data with sub-500ms latency.

## EDUCATION

- Master of Science in Computer Science – The University of Texas at Austin** Aug 2026 — Aug 2028
- Currently enrolled in the online MSCS program; coursework includes Advanced Linear Algebra for Computing.
- Bachelor of Science in Data Science and AI – Federal University of Paraíba (UFPB)** Aug 2020 — Jul 2025
- GPA: 9.43/10 (2nd of class)
  - Teaching Fellow for Introduction to Data Science, with a 30+ student class.

## LEADERSHIP & ACTIVITIES

- Advisor – Memento** Aug 2025 — Present
- NGO mapping alumni from Brazilian public universities; ~100 students, mentors from Harvard, MIT, DeepMind, Nubank, and Google.
- Advisor – Trilha** Apr 2024 — Present
- Educational program giving new students practical CS experience; 50+ students served.

## PUBLICATIONS

- Generation-to-Storage Data Framework for Large-Scale Carbon Sequestration Simulation Datasets** 2025

## RELEVANT CERTIFICATIONS

- Post-training of LLMs – University of Washington** Jan 2026
- Machine Learning in Production – DeepLearning.AI (Coursera)** Sep 2025
- Deep Learning Specialization – DeepLearning.AI (Coursera)**

## SKILLS & INTERESTS

- Technical** Python, SQL, C, C++, Rust, PyTorch, TensorFlow, Megatron, TorchTitan, Slurm, Spark, MLflow, GCP, AWS, Kubernetes
- Language** Portuguese (Native), English (Fluent)
- Interests** Machine Learning Engineering, Large Language Models, AGI, Distributed Systems, MLOps
